6. General Information

Menu **General Information** will give you a general information from the admin portal, like event information.

7. Virtual Class

7.1. Material

You can manage material about subject in classes that you have. After you input material via ACADIS Portal Lecturer, your student can view that material from ACADIS Portal Lecturer.

7.1.1. Input Material

The following below are the steps to input material.

1. Select menu **Virtual Class → Material**.

2. On the **Material**'s page, click **Add Material** button.
3. On the next page, input material data.

Note:

- Click **Browse** button in **File**'s section to search document about the material.
 - In **Status**'s section if you choose **Published**, after you save the material, your students can view it via ACADIS Portal Student. If you choose **Unpublished**, although you save the material, your student can not view it via ACADIS Portal Student.
4. Click **Save** button.

The image shows two overlapping screenshots of a web application. The top screenshot, titled 'Material', shows a form with fields for 'Choose Semester' (set to 'EVEN 2014'), 'Semester' (set to 'EVEN 2014'), 'Section' (set to 'A - Accounting Practicum'), and 'Title'. A 'VIEW MATERIAL' button is at the bottom. The bottom screenshot, titled 'Materi Baru', shows a similar form. It includes 'Semester' (EVEN 2014), 'Section' (A - Accounting Practicum), 'Title', 'File' (with a 'Browse...' button and 'No file selected.' text), 'Abstraction' (a text area with a character limit of 255), and 'Status' (set to 'Published'). At the bottom are 'SAVE' and 'CANCEL' buttons. Red boxes and arrows highlight specific elements: the 'ADD MATERIAL' button in the top right, the 'Browse...' button in the 'File' section, the 'Published' status dropdown, and the 'SAVE' button. A callout box points to the 'Browse...' button with the text 'To choose material document'.

Figure 7.1. Input Material

7.1.2. Edit Material

The following below are the steps to edit material.

1. Select menu **Virtual Class** → **Material**.
2. On the **Material**'s page, search material that you want to edit, then click **View Material** button.
3. And then, list of material will be shown.

4. Click material name link in **Title** column.
5. On the next page, edit material data.
6. Click **Save** button.
